On 2012, Bogor Agricultural University will participate in the "104 Innovation Indonesia 2012" selection program. Accordingly, the Directorate for Research and Strategic Studies of Bogor Agricultural University implemented the Socialization of Innovations 104 Indonesia for 2012, on Friday, 9 March 2012, held in Andi Hakim Nasoetion bldg, Darmaga campus, Bogor. The Organizing Committee invited the Executive Director of Business Innovation Center (BIC), Mr. Kristanto Santosa, and the event was attended by lecturers / researchers and students.

Vice Rector for Research and Cooperation, Prof. Dr. Miftah Anas Fauzi, in his remarks stated thatersity, up to the end of the registration process. Other efforts will also be carried out in searching the innovative thesis and dissertation of the students. Thus, the University will be pro-active, as well as to faciliate the university community in utilizing the BIC to assess their research results," said Prof. Anas.

Meanwhile, Executive Director of the BIC, Mr. Kristanto Santosa, said that in the last few years Bogor Agricultural University has dominated the Innovations Indonesia. "BIC with the support of the Ministry of Research and Technology Republic of Indonesia, again will open opportunities for the Indonesia innovators to participate in the selection of 104 Most Prospective Innovation for the year 2012, "Kristanto said.

The Innovations Indonesia invited those who had submitted their innovation proposals, and had been registered in the BIC Innovation database to participate, except those who had been selected in "100, 101, 102, 103 Innovation and Indonesia". (Wied).
