Graduate Student Forum (Wacana), Bogor Agricultural University (IPB) staged gymnastics and cycling activities with the academic community of IPB (14/4). This event was held on the yard of IPB Rectorate Building. In addition to gymnastics and cycling, the event was also coupled with entertainment such as quiz and door prizes. "Our activities today are gymnastics, cycling and followed by entertainment"

Syamsu Rijal, Head of the Forum said, "The event aims to strengthen the relationship between the academic communities of IPB, not only the graduate communities, and it is also as an antidote to the many activities of the students; we would like to have a routine sport every month and we, of the Wacana Forum, facilitate all academics who have come here."

By holding a regular activity of this kind, Syamsu Rijal hopes there will be motivation from the academics to do some sport and increasingly intertwined relationship between the academic communities of IPB. The event was running so lively; the participants were seen to be highly enthusiastic and happy. (Mtd)
