As many as 4 new buildings were inaugurated at Bogor Agricultural University on 14 February 2011. Those four new buildings are, the Faculty of Forestry, Agriculture Media Center, Public Electronic Agrimedia (Green TV), and Development Incubator Production.

The inauguration took place at the Electronic Agrimedia (Green TV), and after the signing of the inscription stone then the audiences were guided to inspect the offices in the building, which are consisted of a recording room, editing suites, production room, executive offices, and the staff room is in the center. The building was the founder of the of IPB TV station.

In his remarks Rector of IPB, Prof.Dr.Ir. Herry Suhardiyanto, MSc. Stated that the Electronic Agrimedia Building was built not only as the development center for creativity in the production of information packages, but also as a center for practical works of students.

Further, Rector stated, that the Green TV is designed to produce a educational variety shows, especially related to agriculture in the broad sense, including aspects of food security, bioenergy, environmental sustainability, and for the poverty alleviation.

Rector informed that some TV stations showed their interests to cooperate with Bogor Agricultural University to develop packages for their TV programs.

In addition, the establishment of Green TV is actually an effort to produce TV program on agricultural education, as well as to bring the University closer to the public at large", he said

The new building for the Faculty of Forestry Building, is a three-story building, it is ready for student activities. The 1st floor will be for office of the Dean of the Faculty, the 2nd floor will be for lecture rooms with capacity of 70 people/room, the 3rd floor will be for computer lab.

The other two building are Media Center and the Agriculture Production Incubator. The media center is a center to brief guests who plan to conduct field trips to the experimental gardens of the University, therefore, it was built close by the experimental gardens.

While the production Incubator Building is for novice entrepreneur who are in the process of developing their business, therefore, the function rooms are designed in such a way to exhibit the concept of display room, (Wied).
