Institute for Research and Community Service, Bogor Agricultural University (LPPM-IPB), Research and Development Institution of the Ministry of Agriculture, Faculty of Human Ecology (FEMA-IPB), and Indonesian Development and Communication Forum (Forkapi) organized a Scientific Writing Training for the learning staff of the Institution for Agricultural Research and Development, at Bogor Agricultural University (IPB) on 21-24 April 2014. The training was held at the Wednesday Meeting Room of the Department of Communication Science and Community Development (SKPM), FEMA, Darmaga campus of IPB.

In order to improve the skills of critical analysis, synthesis and working capacity of human resources, the Research and Development Agency of the Ministry of Agriculture sends its human resources for further studies in S2 (Master) and S3 (Doctoral) programs . Under the new regulation issued by the Directorate General of Higher Education Number: 152/E/T/2012 dated January 27, 2012, one of the doctoral program graduation requirements is the publication of scientific papers in international journals. This training aims to increase the ability of the participants, who are taking studies in IPB, in writing scientific papers for publication in international and national journals. It is also to help them complete their studies on time.

This activity was attended by 40 people. There were 20 Master students and 20 Doctoral students already having the manuscripts or articles prepared for the publication in a national journal for the master degree and international journals for doctoral programs. The manuscripts to be published are the results of their research, final assignment in the forms of thesis or dissertations. This training was opened by Dean of the Faculty of Human Ecology (FEMA) IPB, Dr. Arif Satria, SP, M.Si by presenting the topic "Open Mind", the importance of writing the aspects required for good writing of scientific articles.

The training lasted for four days, covering the technique and format of writing, scientific publications through the Open Journal System (OJS), assistance in writing groups, language alignment for international journals, presentations, evaluation, and finalization of the participant's article. This activity is expected to generate scientific papers by the learning officials, which are appropriate to be published in international and national journals accredited by the Higher Education and LIPI . The training was closed by Head of LPPM-IPB, Dr. Ir. Prastowo, M.Eng. (Mtd)
