Friday Tour of Institute for Research and Community Services (LPPM) of IPB for the circle of the year of 2014 was ended in Neglasari Village. Chairman of Friday Tour Group of IPB, Dr. Diah Krisnatuti, represented Dean of Faculty of Human Ecology (Fema), offered to the public, mainly the mothers of the volunteers of Post for Integrated Service and the teachers of PAUD to be trained in order to teach better, how to provide balanced nutrition for children, and so on.

In Friday Tour this time, the children under five years old in this village were given the additional food for baby, the porridge of mung beans, egg and milk. What was interesting, it was also presented the doctor who gave consultation about health and nutrition. "Thanks and enjoy the variety of food, lots to eat vegetables, getting used to consume a variety of side dish containing high protein, getting used to have breakfast and wash hand before eating, and getting used to drink sufficient plain water," explained Dr. Diah.
