Research and Innovation Directorate of IPB organized the Business Meeting recently. It was organized to mediate between innovators and entrepreneurs, and was conducted at the IPB Science Park, Bogor, on 28-29 November 2014. Not only businessmen who attended this event, but also elements from government agencies, and community. Director of Research and Innovation IPB, Prof. Dr. Iskandar Z. Siregar said that this event was expected to form the forums for Academic, Business, Government and Community (ABGC), where the business deals between entrepreneurs and innovators will occur. "Cooperation could be a joint venture or license purchase to produce mass innovative productions, as well as establishing a company. This can be communicated between entrepreneurs and innovators," said Prof. Iskandar.

President Director of PT Bogor Life Science and Teknology (BLST), Dr. Meika Syahbana Rusli insisted, "products innovation of IPB should be well accepted by the market." The event was also exhibited IPB products marketed by PT. BLST. (Wied).
